PRINT AUDIT6

PRINT MANAGEMENT TOOLS

Print Audit is a powerful **suite of print management tools** that helps modern organizations to lower the cost and monitor the environmental impact of printing.

Consisting of **3 different SW packages** (i.e. Analysis, Print Rules and Recovery Functions) Print Audit 6 is a solution able to handle and control all printing and photocopying production, even if coming from a personal print device present in the same company.

Moreover, it includes a useful and **flexible reporting** tool which provides a detailed analysis of the whole printing process.

NETWORK PUSH-INSTALL TOOL (NO PRINT SERVER REQUIRED)

EASY ENTERPRISE WIDE INSTALLATION

COMPLETE TRACK OF ALL JOBS

CREATION OF CONFIGURABLE PRINT RULES

SET UP OF PRINT LIMITS (BOTH ON USERS AND FUNCTIONS BASES)

MODULAR REPORTING FUNCTIONALITY

SILENT TRACKING BEHIND THE SCENES

STANDARD FEATURES

- Tracks 100% of printing process (local print devices included)
- Remote printing device installation
- Support for SQL and Access databases
- Client-based architecture for low network overhead
- Print server not required
- Network integration with Windows NT, Active Directory and Novell Directory Services
- Scheduling/emailing of reports

ANALYSIS FUNCTION

- Tracks printing silently behind the scenes
